RIDING BIKES IN THE UNITED STATES

The ridership score reflects how many people in the community ride bikes. It considers biking for both recreational biking and biking for transportation.

Americans want to ride bikes, but we have a lot of work to do to make bike riding experiences more appealing in every U.S. community.

51%

and...

54%

but...

47%

of people would like to ride a bicycle more often

of people think a bike is a convenient way to get from place to place

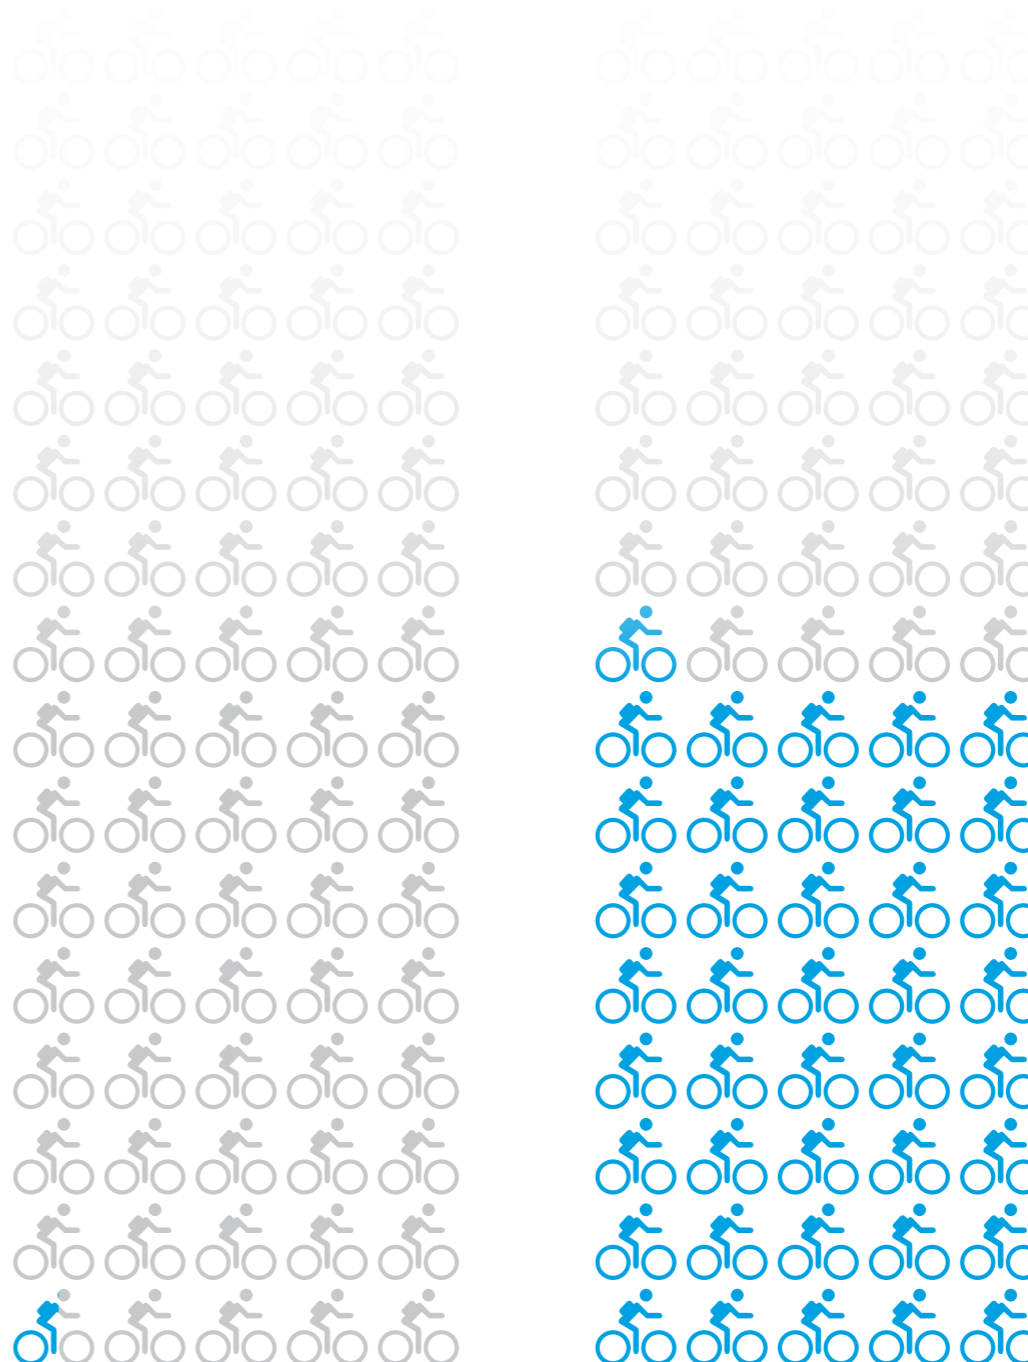

would ride more often with a physical separation from motor vehicles
