1. Transit improvements that include bike infrastructure help everyone arrive on time and safely, whether they drive, bike, walk or take public transportation.
2. Protected bike lanes make the rules of the road clear for bikers, motorists and pedestrians.
3. Get our city moving. Bike infrastructure increases mobility for all — whether you bike, drive or walk.
4. Bike infrastructure allows people on bikes to travel safely without inconveniencing drivers and walkers.
5. Bike lanes combined with road, sidewalk and transit improvements would make our community more livable.
6. Bike infrastructure helps us move forward together by relieving traffic congestion, increasing mobility and opportunity and making our city more livable for all.
7. Drivers, bikers and walkers: bike infrastructure gives us peace on the road because everyone has a piece of the road.
8. Good bike infrastructure is the best way for cyclists, pedestrians and motorists to share the road.
9. Cities are ready for more transportation options. 81% say they would support improved bike infrastructure if it came with improvements such as better roads and parking.
10. Combine bike infrastructure with road and public transit improvements and everyone rides easy.
11. A forward-thinking city helps people get around easily and safely — no matter how they choose to travel.
12. The solution to traffic congestion is more transportation options — like bike infrastructure and better connections to public transit.
13. Drivers and bikers share responsibility for safety. Bike infrastructure promotes safety by making the rules of the road clear for all.
14. No matter how you choose to move, bike infrastructure combined with other transit improvements helps you travel with safety and ease.
15. Bikers and drivers can be held accountable to the rules of the road when bike infrastructure is a part of our city's transportation improvements.
