

FLORIDA'S E-BIKE LAW FOR THE ROAD

- » In Florida, an e-bike is defined as a “bicycle,” so long as it is capable of being propelled by human power and has a maximum speed of 20mph.
- » E-bikes are not subject to the registration, licensing or insurance requirements that apply to motor vehicles.

- » Helmets are not required. There is a 16 year age minimum for e-bike use.
- » E-bikes are not allowed on sidewalks, and only allowed on bike paths when under human power alone.
- » The same rules of the road apply to both e-bikes and traditional bikes.

* The following Florida laws are referenced: Fla. Stat. §§ 322.01, 316.003.

eMTB GUIDELINES

- » On federal, state, county and local trails, e-mountain bike (eMTB) access varies significantly.
- » Generally, any natural surface trail that is designated as open to both motorized and non-motorized uses is also open to eMTBs.
- » eMTBs may not be allowed on trails managed for non-motorized activities.
- » Do not ride your eMTB in areas where the local rules are unclear. Ride legally and only on authorized trails to show that mountain bikers are responsible trail users.
- » When in doubt, ask your local land manager about access to specific trails. Local land rules change frequently.

FLORIDA'S E-BIKE LAW FOR TRAILS

- » LOCAL: Consult your local land management agency.
- » STATE: The Florida Department of Environmental Protection allows Class 1 and 3 e-bikes wherever traditional bicycles are allowed. Contact the department for more information. PeopleForBikes is monitoring this policy and will update this document as needed.
- » FEDERAL: The majority of public lands managed for recreation in Florida are under the jurisdiction of the U.S. Forest Service, where eMTBs are considered motorized vehicles and have access to motorized trails. Contact the U.S. Forest Service Southern Regional Office for more information.

GREAT eMTB RIDES IN FLORIDA

- » **Alafia River State Park**
Lithia | 8.5 miles
- » **Oleta River State Park**
North Miami Beach | 17 miles
- » **Jonathon Dickinson State Park**
Jupiter | 9 miles
- » **Fort Clinch State Park**
Fernandina Beach | 5.4 miles

With an e-bike, bicyclists can ride more often, farther, and for more trips.

Electric bicycles are designed to be as safe as traditional bicycles, do not compromise consumer safety, and benefit bicyclists who may be discouraged from riding a traditional bicycle due to limited physical fitness, age, disability or convenience.

In many states, e-bikes are regulated under antiquated laws primarily aimed at combustion engine vehicles such as mopeds or scooters. PeopleForBikes and the Bicycle Product Suppliers Association are clarifying state laws governing the use of e-bikes in the U.S. Every state's law is different, but the objective is to ensure that low-speed e-bikes are regulated similarly to traditional, human-powered bicycles.
